2. Project Support & Maintenance

After project completion, we provide support based on the terms outlined in the contract. The support period varies depending on the service package selected. Additional support or maintenance services outside the included period may incur extra costs, which will be quoted based on the scope of the requested changes.

3. Security & Hosting

We prioritize the security of your website and collaborate with one.com, a trusted hosting provider, to ensure the highest level of protection. Our services include:

4. Changes & Modifications

Any changes or modifications to the website post-launch that are not covered in the original agreement will incur additional costs. These costs depend on the complexity and size of the changes required and will be quoted beforehand.

5. Contract Termination

In the event of a contract breach, the matter will be escalated to legal authorities for resolution. Any expenses arising from legal proceedings will be the responsibility of the party found to be in breach of contract.
